
Visual Retailing attending Paris Retail Week 2018

10. – 12. September 2018, Paris Expo Porte de Versailles

Still searching for the perfect solution to enhance your retail planning & execution? You do not have to look any longer.

Just stop by at our booth S 097 in Pavilion 1 and learn more about how our tried-and-true techniques and cutting-edge 3D technology will change the way you work.

Visual Retailing is a global provider of retail execution and compliance management solutions. We supply the most innovative range assortment, space planning and Visual Merchandising solutions, and interactive 3D retail experience to retailers and manufacturers.

Our software solutions MockShop and ShopShape work for Buying & Planning teams, Marketing & Visual Merchandisers and Management & C-Level. Learn more about how you can create visual storyboards of your product collection and visualise your range with deeply integrated product data, develop digital mock up stores, generate planograms and visual guidelines to maintain a consistent brand image and much more.

Contact our Business Consultant Sam Nemouchi to book a personal appointment during the event to get a demonstration of our products.
